	Methods of Evaluation	
	Continuous Internal Assessment Test	
Internal Evaluation	Assignments	25 Marks
	Seminars	
	Attendance and Class Participation	
External Evaluation	End Semester Examination	75 Marks
	Total	100 Marks
	Methods of Assessment	
Recall (K1)	Simple definitions, MCQ, Recall steps, Concept definitions	3
Understand/Comprehend (K2)	MCQ, True/False, Short essays, Concept explanations, Soverview	Short summary or
Application (K3)	Suggest idea/concept with examples, Suggest formulae, Sol Observe, Explain	ve problems,
Analyze(K4)	Problem-solving questions, Finish a procedure in many st	teps, Differentiate
	between various ideas, Map knowledge	
Evaluate(K5)	Longer essay/Evaluation essay, Critique or justify with pros	and cons
Create(K6)	Check knowledge in specific or off beat situations, Discus	ssion, Debating or
	Presentations	

Programme Outcomes:

PO1: Disciplinary knowledge: Capable of demonstrating comprehensive knowledge and understanding of one or more disciplines that form a part of an undergraduate Programme of study

PO2: Communication Skills: Ability to express thoughts and ideas effectively in writing and orally; Communicate with others using appropriate media; confidently share one's views and express herself/himself; demonstrate the ability to listen carefully, read and write analytically, and present complex information in a clear and concise manner to different groups.

PO3: Critical thinking: Capability to apply analytic thought to a body of knowledge; analyse and evaluate evidence, arguments, claims, beliefs on the basis of empirical evidence; identify relevant assumptions or implications; formulate coherent arguments; critically evaluate practices, policies and theories by following scientific approach to knowledge development.

PO4: Problem solving: Capacity to extrapolate from what one has learned and apply their competencies to solve different kinds of non-familiar problems, rather than replicate curriculum content knowledge; and apply one's learning to real life situations.

PO5: Analytical reasoning: Ability to evaluate the reliability and relevance of evidence; identify logical flaws and holes in the arguments of others; analyze and synthesize data from a variety of sources; draw valid conclusions and support them with evidence and examples, and addressing opposing viewpoints.

PO6: Research-related skills: A sense of inquiry and capability for asking relevant/appropriate questions, problem arising, synthesising and articulating; Ability to recognise cause-and-effect relationships, define problems, formulate hypotheses, test hypotheses, analyse, interpret and draw conclusions from data, establish hypotheses, predict cause-and-effect relationships; ability to plan, execute and report the results of an experiment or investigation

PO7: Cooperation/Team work: Ability to work effectively and respectfully with diverse teams; facilitate cooperative or coordinated effort on the part of a group, and act together as a group or a team in the interests of a common cause and work efficiently as a member of a team

PO8: Scientific reasoning: Ability to analyse, interpret and draw conclusions from quantitative/qualitative data; and critically evaluate ideas, evidence and experiences from an open-minded and reasoned perspective.

PO9: Reflective thinking: Critical sensibility to lived experiences, with self awareness and reflexivity of both self and society.

PO10 Information/digital literacy: Capability to use ICT in a variety of learning situations, demonstrate ability to access, evaluate, and use a variety of relevant information sources; and use appropriate software for analysis of data.

PO 11 Self-directed learning: Ability to work independently, identify appropriate resources required for a project, and manage a project through to completion.

PO 12 Multicultural competence: Possess knowledge of the values and beliefs of multiple cultures and a global perspective; and capability to effectively engage in a multicultural society and interact respectfully with diverse groups.

PO 13: Moral and ethical awareness/reasoning: Ability to embrace moral/ethical values in conducting one's life, formulate a position/argument about an ethical issue from multiple perspectives, and use ethical practices in all work. Capable of demonstrating the ability to identify ethical issues related to one"s work, avoid unethical behaviour such as fabrication, falsification or misrepresentation of data or committing plagiarism, not adhering to intellectual property rights; appreciating environmental and sustainability issues; and adopting objective, unbiased and truthful actions in all aspects of work.

PO 14: Leadership readiness/qualities: Capability for mapping out the tasks of a team or an organization, and setting direction, formulating an inspiring vision, building a team who can help achieve the vision, motivating and inspiring team members to engage with that vision, and using management skills to guide people to the right destination, in a smooth and efficient way.

PO 15: Lifelong learning: Ability to acquire knowledge and skills, including "learning how to learn", that are necessary for participating in learning activities throughout life, through self-paced and self-directed learning aimed at personal development, meeting economic, social and cultural objectives, and adapting to changing trades and demands of work place through knowledge/skill development/reskilling.

Programme Specific Outcomes:

PSO1 – Placement:

To prepare the students who will demonstrate respectful engagement with others' ideas, behaviors, beliefs and apply diverse frames of reference to decisions and actions.

PSO 2 - Entrepreneur:

To create effective entrepreneurs by enhancing their critical thinking, problem solving, decision making and leadership skill that will facilitate startups and high potential organizations

PSO3 – Research and Development:

Design and implement HR systems and practices grounded in research that comply with employment laws, leading the organization towards growth and development.

PSO4 – Contribution to Business World:

To produce employable, ethical and innovative professionals to sustain in the dynamic business world.

PSO 5 – Contribution to the Society:

To contribute to the development of the society by collaborating with stakeholders for mutual benefit

Semester - I	CORE- I	L	T	P	С
23UCOAC13	FINANCIAL ACCOUNTING-I	5			5

Learni	Learning Objectives:							
LO1:	To understand the basic accounting concepts and standards.							
LO2:	To know the basis for calculating business profits.							
LO3:	To familiarize with the accounting treatment of depreciation.							
LO4:	To learn the methods of calculating profit for single entry system.							
LO5:	To gain knowledge on the accounting treatment of insurance claims.							

Course	Outcomes:
	After the successful completion of the course, the students will be able to:
CO1:	Remember the concept of rectification of errors and Bank reconciliation statements
CO2:	Apply the knowledge in preparing detailed accounts of sole trading concerns
CO3:	Analyse the various methods of providing depreciation
CO4:	Evaluate the methods of calculation of profit
CO5:	Determine the royalty accounting treatment and claims from insurance companies in case of loss of stock.

Unit I: Fundamentals of Financial Accounting

Financial Accounting – Meaning, Definition, Objectives, Basic Accounting Concepts and Conventions - Journal, Ledger Accounts – Subsidiary Books — Trial Balance - Classification of Errors – Rectification of Errors – Preparation of Suspense Account – Need and Preparation - Bank Reconciliation Statement.

Unit II: Final Accounts

Final Accounts of Sole Trading Concern- Capital and Revenue Expenditure and Receipts – Preparation of Trading, Profit and Loss Account and Balance Sheet with Adjustments.

Unit III: Depreciation and Bills of Exchange

Depreciation - Meaning - Objectives - Accounting Treatments - Types - Straight Line Method - Diminishing Balance method - Conversion method.

 $Annuity\ Method-Depreciation\ Fund\ Method-Insurance\ Policy\ Method-Revaluation\ Method-Depletion\ Method-Sum\ of\ Digits\ Method-Machine\ Hour\ Rate\ Method\ .$

Bills of Exchange – Definition – Specimens – Discounting of Bills – Endorsement of Bill – Collection – Noting – Renewal – Retirement of

Incomplete Records -Meaning and Features - Limitations - Difference between Incomplete Records and Double Entry System -

Unit IV: Accounting from Incomplete Records

Methods of Calculation of Profit - Statement of Affairs Method - Preparation of final statements by Conversion method. Bill under rebate - Insolvency of Acceptor - Accommodation.

Average Due Date and Account Current.

Unit V: Royalty and Insurance of Claims

 $\label{lem:meaning-Minimum-Rent-Short Working-Recoupment of Short Working-Lessor and \\ Lessee-Sublease-Accounting Treatment$

Recent Trends in Financial Accounting

Faculty member will impart the knowledge on recent trends in Financial Accounting to the students and these components will not cover in the examination.

Text Books:

FIRST YEAR – SEMESTER – I

C Programming Lab

Learning Objectives: (for teachers: what they have to do in the class/lab/field)

- Understand problem statements and identify appropriate solutions.
- Demonstrate the use of IDE and C Compiler.
- Develop programs using C Programming Language.

Course Outcomes: (for students: To know what they are going to learn)

CO1: Apply the concept of Control Structures to solve any given problem.

CO2: Apply the concept of single and multi-dimensional arrays to solve problems related to searching, sorting and matrix operations.

CO3: Apply the concept of Strings for writing programs related to character array.

CO4: Write programs using concept of user defined and recursive functions.

CO5: Apply concept of structures to write programs.

List of Programs

- 1. Write a C program to find roots of a Quadratic equation.
- 2. Write a C program to find the total no. of digits and the sum of individual digits of a positive integer.
- 3. Write a C program to generate the Fibonacci sequence of first N numbers.
- 4. Write a C program to sum the series $S=1-x+(x^2/2!)-(x^3/3!)+\cdots-(x^n/n!)$
- 5. Write a C program to arrange the elements of an integer array using Bubble Sort algorithm.
- 6. Write a C program to input two matrices and perform matrix multiplication on them
- 7. Write a C program to check whether the given string is palindrome or not without using Library functions.
- 8. Write a C program to count the number of lines, words and characters in a given text.
- 9. Write a C program to generate Prime numbers in a given range using user defined function.
- 10. Write a C program to find factorial of a given number using recursive function.
- 11. Write a C program to maintain a record of n student details using an array of structures with four fields Roll number, Name, Marks and Grade. Calculate the Grade according to the following conditions.

Marks Grade

>=80 A

>=60 B

>=50 C

>=40 D

<40 E

Print the details of the student, given the student Roll number as input.

Extended Professional Component	Questions related to the above topics, from various competitive examinations UPSC / TRB / NET / UGC –CSIR / GATE / TNPSC / others to be solved (To be discussed during the Tutorial hour)
Skills acquired from the course	Knowledge, Problem Solving, Analytical ability, Professional Competency, Professional Communication and Transferrable Skill

Text Books:

Python Programming Lab

Learning Objectives: (for teachers: what they have to do in the class/lab/field)

- Acquire programming skills in core Python.
- Acquire Object-oriented programming skills in Python.
- Develop the skill of designing graphical-user interfaces (GUI) in Python.
- Develop the ability to write database applications in Python.
- Acquire Python programming skills to move into specific branches

Course Outcomes: (for students: To know what they are going to learn)

CO1: To understand the problem solving approaches

CO2: To learn the basic programming constructs in Python

CO3: To practice various computing strategies for Python-based solutions to real world problems

CO4: To use Python data structures - lists, tuples, dictionaries.

List of Programs

- 1. Program to convert the given temperature from Fahrenheit to Celsius and vice versa depending upon user's choice.
- 2. Write a Python program to construct the following pattern, using a nested loop

** ***

*

3. Program to calculate total marks, percentage and grade of a student. Marks obtained in each of the five subjects are to be input by user. Assign grades according to the following criteria:

Grade A: Percentage >=80 Grade B: Percentage >=70 and 80

Grade C: Percentage >=60 and <70 Grade D: Percentage >=40 and <60

Grade E: Percentage < 40

- 4. Program, to find the area of rectangle, square, circle and triangle by accepting suitable input parameters from user.
- 5. Write a Python script that prints prime numbers less than 20.
- 6. Program to find factorial of the given number using recursive function.
- 7. Write a Python program to count the number of even and odd numbers from array of N numbers.
- 8. Write a Python class to reverse a string word by word.
- 9. Read a file content and copy only the contents at odd lines into a new file.
- 10. Create a Turtle graphics window with specific size.

Extended	Questions related to the above topics, from various competitive examinations
Professional	UPSC / TRB / NET / UGC -CSIR / GATE / TNPSC / others to be solved (To be
Component	discussed during the Tutorial hour)

*	Knowledge, Problem Solving, Analytical ability, Professional Competency, Professional Communication and Transferrable Skill
course

Semester - I	SKILL ENHANCEMENT COURSE -1	L	T	P	С
23UCOAN16	(NME-I) DIGITAL BANKING	2			2

Learni	ng Objectives:			
LO1:	To acquaint students with knowledge of Digital Banking Products.			
LO2:	To enable the students to understand the knowledge of Digital Payment System			
LO3:	To impart the students to understand the new concepts of Mobile and Internet Banking			
LO4:	To enables the students to have depth knowledge in point of sale terminals			
LO5:	To understand the ATM and cash deposit system			
Course	Course Outcomes:			
	After the successful completion of the course, the students will be able to:			
CO1:	Explain the need for digital banking products and the usage of cards.			
CO2:	Classify the usage of various payment systems.			
CO3:	Discuss the profitability, risk management and frauds of mobile and internet banking.			
CO4:	Analyse the approval processes of POS terminals.			
CO5:	Explain the product features and services of ATM and Cash Deposit Machine.			

Unit I: Digital Banking Products

Digital Banking –Meaning – Features - Digital Banking Products - Features - Benefits – Bank Cards –Features and Incentives of Bank cards - Types of Bank Cards - New Technologies - Europay, Master and Visa Card (EMV) - Tap and Go, Near FieldCommunication (NFC) etc. - Approval Processes for Bank Cards – Customer Education for Digital Banking Products - Digital Lending –Digital Lending Process- Non-Performing- Asset (NPA.

Unit II: Payment System

Overview of Domestic and Global Payment systems -RuPay and RuPay Secure - Immediate Payment Service (IMPS) - National Unified USSD Platform (NUUP) - National Automated Clearing House (NACH) - Aadhaar Enabled Payment System (AEPS) -Cheque Truncation System (CTS) -Real Time Gross Settlement Systems (RTGS)-National Electronic Fund Transfer(NEFT) - Innovative Banking & Payment Systems.

Unit III: Mobile and Internet Banking

Mobile & Internet Banking - Overview - Product Features and Diversity - Corporate and Individual Internet Banking Integration with e-Commerce Merchant sites, IMPS - Profitability - Risk Management and Frauds - Cyber Crime - Cyber Security - Blockchain Technology - Types - Crypto currency and Bitcoins

Unit IV: Point of Sale Terminals

Point of Sale (POS) Terminals - Overview - Features - Approval processes for POS Terminals - Key Components of POS - Hardware - Software - User Interface Design - Cloudbased Point of Sale - Cloud Computing - Benefits of POS in Retail Business.

Unit V: Automated Teller Machine and Cash Deposit Systems

Automated Teller Machine(ATM) - Cash Deposit Machine(CDM)& Cash Recyclers - Overview - Features - ATM Instant Money Transfer Systems - National Financial Switch (NFS) - Various Value Added Services - Proprietary, Brown Label and White Label ATMs - ATM & CDM Network Planning - Onsite / Offsite - ATM security, Surveillance and Fraud Prevention.

Recent Trends in Digital Banking

Faculty member will impart the knowledge on recent Developments in Digital Banking to the students and these components will not cover in the examination.

Text Books:

- 1. IIBF, 2019.Digital Banking. Taxmann Publications, New Delhi
- 2. Gordon E. & Natarajan S. 2017 Banking Theory, Law and Practice. 24th Revised Edition. Himalaya Publishing House, New Delhi
- 3. Ravindra Kumar and Manish Deshpande. 2016 E-Banking. Pacific Books International, 2016.
- 4. Uppal R.K. 2017 E-Banking: The Indian Experience. Bharti Publications, 2017.

Supplementary Readings:

- 1. Arunajatesan S 2017 Technology in Banking Margham Publications Chennai...
- 2. Digital Banking 2016 Indian Institute of Banking and Finance, Pvt Limited New Delhi.
- 3. Indian Institute of Banking and Finance, 2016 ,General Bank Management, McMillan, Mumbai
- 4. SubbaRao S and Khanna. P.L 2014 Principles and Practice of Bank Management, Himalya Publishing House, Mumbai.

Semester-I	FOUNDATION COURSE	L	T	P	C
23UCOMF17	FUNDAMENTALS OF BUSINESS STUDIES	2			2

A bridge course for the students of commerce faculty is conducted every year to get the students the knowledge of commerce faculty. The main objective of the course is to bridge the gap between subjects studied at School level and subjects they would be studying in commerce faculty. A Bridge course aims to cover the gap between the understanding level of the higher secondary school courses and higher educational courses. Bridge course is preparative course for college level course with an academic curriculum that is offered to enhance the knowledge of the students by means of preparing for the intellectual challenges of commerce subject and to know basic information about core subject.

Bridge courses are the tool to help students to success in their graduate level studies. It is also a pre requisite and foundational course to know the basic information about commerce subjects.

FUNDAMENTALS OF BUSINESS STUDIES

Objective

The bridge course aims to act as a buffer for the new entrants with an objective to provide adequate time for the transition to hard core of degree courses. This gives them a breather, to prepare themselves before the onset of courses for first year degree programme.

Course	Course Outcomes:						
	After the successful completion of the course, the students will be able to:						
CO1:	To make the students familiar with the basic concepts of commerce, and Management Fields.						
CO2:	To encourage and motivate the Students for the commerce Education.						
CO3:	To make the students aware towards the various branches of commerce for Example, Accounts, Banking and Auditing.						

Unit I Commerce-Introduction

Definition of Commerce - Importance's of Commerce - Meaning of barter system -- business-industry-trade-hindrances of trade-branches of Commerce.

Unit II Accounting-Introduction

Book-Keeping-Meaning -Definition -Objectives-Accounting-Meaning -Definition-Objectives-Importance-Functions-Advantages- Limitations-Methodsof Accounting-Single Entry Double Entry-Steps involved in double entry system-Advantages of double entry system-Meaning of Debit and Credit-Types of Accounts and its rules-Personal Accounts-Real Accounts-Nominal Accounts.

Unit III Marketing and Advertising

Meaning of Marketing-Definition-Functions of Marketing- Meaning of Consumer – Standardization and Grading -Pricing –Kinds of Pricing -AGMARK-ISI-Advertising: Meaning, Characteristics, Advertising Objectives, Advertising Functions Advantages of advertising, Kinds of Advertising, Advertising Media, Kinds of media

Unit IV Auditing & Entrepreneurial Development

Introduction of Auditing -Origin and Evolution –Definition - Features of Auditing -Objectives of Auditing Advantages of Audit -Limitations of Auditing -Distinction between Auditing & Investigation -Distinction between Accounting & Auditing -Basic Principles of Audit - Classification of Audit- Entrepreneurial Development-Characteristics of an entrepreneur-Functions of an entrepreneur-Types of an entrepreneur -Problems of Women entrepreneur-Concept of Women Entrepreneurs

Unit V: Income Tax Law and Practice

Tax history-Types –Various Terms in Tax-Exempted Income U/S 10-Canons of Taxation-Income Tax Authority and Administration-Slab Rate -Filing of Returns-Residential Status. **Text Books:**

- 1. L.M. Prasad, Principles of Manaement, 2022 S.Chand &Sons Co. Ltd, New Delhi.
- 2. S. P. Jain and K. L. Narang 2023 Financial Accounting- I, Kalyani Publishers, New Delhi.
- 3. Dr. N. Rajan Nair, 2023 Marketing, Sultan Chand & Sons. New Delhi
- 4. Jayashree Suresh, (Reprint 2017) Entrepreneurial Development, Margham Publications. Chennai
- 5. Sundar K. and Paari, 2016 Auditing Vijay Nicole, Imprints Private Ltd, Chennai.
- 6. T. Srinivasan 2024 Income Tax & Practice –Vijay Nicole Imprints Private Limited, Chennai.

Semester - II	CORE- III : FINANCIAL ACCOUNTING -II L T P 5	C			
23UCOAC23	CORE- III: FINANCIAL ACCOUNTING -II	5			5

Learni	Learning Objectives:									
LO1:	The students are able to prepare different kinds of accounts such Higher purchase and Instalments System.									
LO2:	To understand the allocation of expenses under departmental accounts									
LO3:	To gain an understanding about partnership accounts relating to Admission and retirement									
LO4:	Provides knowledge to the learners regarding Partnership Accounts relating to dissolution of firm									
LO5:	To know the requirements of international accounting standards									

Course	Course Outcomes:									
	After the successful completion of the course, the students will be able to:									
CO1:	To evaluate the Hire purchase accounts and Instalment systems									
CO2:	To prepare Branch accounts and Departmental Accounts									
CO3:	To understand the accounting treatment for admission and retirement in partnership									
CO4:	To know Settlement of accounts at the time of dissolution of a firm.									
CO5:	To elaborate the role of IFRS									

Unit I: Hire Purchase and Instalment System

Hire Purchase System – Accounting Treatment – Calculation of Interest - Default and Repossession - Hire Purchase Trading Account Instalment System - Calculation of Profit

Unit II: Branch and Departmental Accounts

Branch – Dependent Branches: Accounting Aspects - Debtors system -Stock and Debtors system – Distinction between Wholesale Profit and Retail Profit – Independent Branches (Foreign Branches excluded) - Departmental Accounts: Basis of Allocation of Expenses – Inter- Departmental Transfer at Cost or Selling Price.

Unit III: Partnership Accounts - I

Partnership Accounts: -Admission of a Partner - Treatment of Goodwill - Calculation of Hidden Goodwill -Retirement of a Partner - Death of a Partner.

Unit IV: Partnership Accounts - II

Dissolution of Partnership - Methods – Settlement of Accounts Regarding Losses and Assets – Realization account – Treatment of Goodwill – Preparation of Balance Sheet - Insolvency of a Partner – One or more Partners insolvent – All Partners insolvent - Garner Vs Murray – Accounting Treatment - Piecemeal Distribution – Surplus Capital Method – Maximum Loss Method.

Unit V: Accounting Standards for financial reporting

Objectives and Uses of Financial Statements for Users-Role of Accounting Standards - Development of Accounting Standards in India- Requirements of International Accounting Standards - Role of Developing IFRS- IFRS Adoption or Convergence in India-

Implementation Plan in India- Ind AS- An Introduction - Difference between Ind AS and IFRS.

Recent Trends in Financial Accounting

Faculty member will impart the knowledge on recent trends in Financial Accounting to the students and these components will not cover in the examination.

Note: Question Paper shall cover 20% Theory and 80% Problems.

23UCOAC24	CODE II. DUCINIECC I AW	L	T	P	С
Semester - II	CORE-II: BUSINESS LAW	5			5

Learni	Learning Objectives:								
LO1:	o know the nature and objectives of Mercantile law								
LO2:	To understand the essentials of valid contract								
LO3:	To gain knowledge on performance contracts								
LO4:	To define the concepts of Bailment and pledge								
LO5:	To understand the essentials of contract of sale								

Course	Course Outcomes:									
	fter the successful completion of the course, the students will be able to:									
CO1:	Explain the Objectives and significance of Mercantile law									
CO2:	Understand the clauses and exceptions of Indian Contract Act.									
CO3:	Explain concepts on performance, breach and discharge of contract.									
CO4:	Outline the contract of indemnity and guarantee									
CO5:	Explain the various provisions of Sale of Goods Act 1930									

Unit I: Introduction

An introduction – Definition – Objectives of Law - Law: Meaning and its Significance, Mercantile Law: Meaning, Definition, Nature, Objectives, Sources, Problems of Mercantile Law

Unit II: Elements of Contract

Indian Contract Act 1872: Definition of Contract, Essentials of Valid Contract, Classification of Contract, Offer and Acceptance – Consideration – Capacity of Contract – Free Consent - Legality of Object – Contingent Contracts – Void Contract

Unit III: Performance Contract

Meaning of Performance, Offer to Perform, Devolution of Joint liabilities & Rights, Time and Place of Performance, Reciprocal Promises, Assignment of Contracts - Remedies for Breach of contract - Termination and Discharge of Contract - Quasi Contract

Unit IV: Contract of Indemnity and Guarantee

Contract of Indemnity and Contract of Guarantee - Extent of Surety's Liability, Kinds of Guarantee, Rights of Surety, Discharge of Surety - Bailment and Pledge - Bailment - Concept - Essentials and Kind - Classification of Bailments, Duties and Rights of Bailor and Bailee - Law of Pledge - Meaning - Essentials of Valid Pledge, Pledge and Lien, Rights of Pawner and Pawnee.

Unit V: Sale of Goods Act 1930

Definition of Contract of Sale – Formation - Essentials of Contract of Sale - Conditions and Warranties - Transfer of Property – Contracts involving Sea Routes - Sale by Non-owners - Rights and duties of buyer - Rights of an Unpaid Seller

Recent Amendements in Business Law

Faculty member will impart the knowledge on recent Amendments in Business Law to the students and these components will not cover in the examination.

Text Books:

Office Automation Lab

Learning Objectives: (for teachers: what they have to do in the class/lab/field)

Office tools course would enable the students in crafting professional word documents, excel spread sheets, power point presentations using the Microsoft suite of office tools.

To familiarize the students in preparation of documents and presentations with office automation tools.

Course Outcomes: (for students: To know what they are going to learn)

CO1: to perform documentation
CO2: to perform accounting operations
CO3: to perform presentation skills

List of Programs

Word

Word Orientation: The instructor needs to give an overview of Microsoft word & Importance of MS Word as word Processor, Details of the four tasks and features that would be covered Using word – Accessing, overview of toolbars, saving files, Using help and resources, rulers, format painter.

Task 1: Using word to create project certificate. Features to be covered:-Formatting Fonts in word, Drop Cap in word, Applying Text effects, Using Character Spacing, Borders and Colors, Inserting Header and Footer, Using Date and Time option in Word.

Task 2 : Creating project abstract Features to be covered:-Formatting Styles, Inserting table, Bullets and Numbering, Changing Text Direction, Cell alignment, Footnote, Hyperlink, Symbols, Spell Check, Track Changes.

Task 3: Creating a Newsletter: Features to be covered:- Table of Content, Newspaper columns, Images from files and clipart, Drawing toolbar and Word Art, Formatting Images, Textboxes and Paragraphs

Excel

Excel Orientation : The instructor needs to tell the importance of MS Excel as a Spreadsheet tool, give the details of the four tasks and features that would be covered Excel – Accessing, overview of toolbars, saving excel files, Using help and resources {Comdex Information Technology course tool kit Vikas }

Task1: Creating a Scheduler - Features to be covered: Gridlines, Format Cells, Summation, auto fill, Formatting Text

Task 2 : Calculations - Features to be covered:- Cell Referencing, Formulae in excel – average, standard deviation, Charts, Renaming and Inserting worksheets, Hyper linking, Count function, LOOKUP/VLOOKUP

Task 3 : Performance Analysis - Features to be covered:- Split cells, freeze panes, group and outline, Sorting, Boolean and logical operators, Conditional formatting

MS Power Point

Task1: Students will be working on basic power point utilities and tools which help them create basic power point presentation. Topic covered includes: PPT Orientation, Slide Layouts, Inserting Text, Word Art, Formatting Text, Bullets and Numbering, Auto Shapes, Lines and Arrows

Task 2: This session helps students in making their presentations interactive. Topics covered includes: Hyperlinks, Inserting –Images, Clip Art, Audio, Video, Objects, Tables and Charts

Task 3: Concentrating on the in and out of Microsoft power point. Helps them learn best practices in designing and preparing power point presentation. Topics covered includes: Master Layouts (slide, template, and notes), Types of views (basic, presentation, slide slotter, notes etc), Inserting – Background, textures, Design Templates, Hidden slides. Auto content

wizard, Slide Transition, Custom Animation, Auto Rehearsing

Extended Professional Component	Questions related to the above topics, from various competitive examinations UPSC / TRB / NET / UGC -CSIR / GATE / TNPSC / others to be solved (To be discussed during the Tutorial hour)

FIRST YEAR – SEMESTER - II

Object Oriented Programming with C++

Learning Objectives: (for teachers: what they have to do in the class/lab/field)

- Design classes for the given problems.
- Write programs in C++.
- Code, debug and execute a C++ program to solve the given problems using an IDE.

Course Outcomes: (for students: To know what they are going to learn)

- CO1: Design and create classes. Implement Stream I/O as appropriate.
- CO2: Design appropriate data members and member functions.
- CO3: Implement functions, friend functions, static members, constructors and compile-time polymorphism.
- CO4: Implement inheritance, run-time polymorphism and destructors.
- CO5: Implement templates and exceptions. Use STL class library.Implement File I/O.

List of Programs

- 1. Write a class to represent a complex number which has member functions to do the following
 - a. Set and show the value of the complex number
 - b. Add, subtract and multiply two complex numbers
 - c. Multiplying the complex number with a scalar value
- 2. Write a Point class that represents a 2-d point in a plane. Write member functions to
 - a. Set and show the value of a point
 - b. Find the distance between two points
 - c. Check whether two points are equal or not
- 4. Design and implement a class to represent a Solid object.
 - a. Apart from data members to represent dimensions, use a data member to specify the type of solid.
 - b. Use functions to calculate volume and surface area for different solids.
- 5. Design a class representing time in hh:mm:ss. Write functions to
 - a. Set and show the time
 - b. Find the difference between two time objects
 - c. Adding a given duration to a time
 - d. Conversion of the time object to seconds
- 6. Design a 3x3 matrix class and demonstrate the following:
 - a. Addition and multiplication of two matrices using operator overloading
 - b. Maintaining a count of the number of matrix object created
- 7. Design a class called cString to represent a string data type. Create a data member in the class to represent a string using an array of size 100. Write the following functionality as member functions:
 - a. Copy Constructor
 - b. Concatenate two strings
 - c. Find the length of the string
 - d. Reversing a string
 - e. Comparing two strings
- 8. Design a class called cString to represent a string data type. Create a data member in the class to represent a string whose size is dynamically allocated. Write the following as member functions:
 - a. Copy Constructor
 - b. Destructor
 - c. Concatenate two strings

d.	Find the length of the string
e.	Reversing a string
f.	Comparing two strings

Extended Professional Component	Questions related to the above topics, from various competitive examinations UPSC / TRB / NET / UGC –CSIR / GATE / TNPSC / others to be solved (To be discussed during the Tutorial hour)
Skills acquired from the Course	Knowledge, Problem Solving, Analytical ability, Professional Competency, Professional Communication and Transferrable Skill

Semester-II	SKILL ENHANCEMENTCOURSE-2	L	T	P	С
23UCOAN26	(NME -II) FUNDAMENTALS OF FINTECH	2			2

Learnin	ng Objectives:
LO1:	To educate the students to introduce Fintech
LO2:	To gain knowledge in Financial Technology and Digital payments
LO3:	To acquire knowledge in Cryptocurrencies
LO4:	To know the knowledge in Block Chain Technology
LO5:	To understand the effects of fintech on various sectors
Course	Outcomes:
	After the successful completion of the course, the students will be able to:
CO1:	Identify the benefits of FinTech industry;
CO2:	Enable a better understanding of Financial Technology and Digital Payments
CO3:	Analyse the functioning of Cryptocurrency
CO4:	Explain the impact of Block Chain Technology
CO5:	Evaluate the effects of Fintech on various sectors

Unit I: Introduction to Fintech

Introduction – Meaning of FinTech - Definitions - The History And Evolution Of The Fintech Industry - FinTech Ecosystem - Recent Developments - FinTech In India - FinTech Market Trends In India - Types Of FinTech or Transformation of Financial Services - Benefits Of FinTech - Drawbacks Of FinTech - Key Growth Drivers - Challenges

Unit II: Financial Technology and Digital Payments

Introduction -Artificial Intelligence (AI) in FinTech-Machine Learning in FinTech - Machine Learning in Accounting and Finance - Robotic Process Automation (RPA) — Financial Data Analytics - Data Science and Big Data in FinTech - Digital Payments - Cashless Society - DFS Eco System -Developing Countries and DFS: The Story of Mobile Money - RTGS networks;

Unit III: Cryptocurrencies

Cryptocurrencies - benefits - disadvantages - Examples of cryptocurrencies - Outline of cryptocurrency - types- wallet - Legal and Regulatory Implications - legal position of cryptocurrencies in India - Impact on cryptocurrencies

Unit IV: Blockchain Technology

Blockchain Technology in FinTech – An understanding of Blockchain technology, its potential, and applications - BCT in Banking – Benefits of BCT in banking - BCT in Indian Banking Sector - BCT in supply chain management

Unit V: Effects of Fin-Tech on Various Sectors

Effects of Fin-tech on Payment Innovations – The Implications of Fintech On Real Estate, Insurance, Health, And Payment Innovations – The effects of Fin-tech on Payment Innovations – Health- Real-Estate- Insurance Sector- Capital Market - Key Fin-tech trends - FinTech Around the Globe: Asia, Middle East, South America, Europe, Southeast Asia / Australia and Africa

Recent Trends in Fintech

Faculty member will impart the knowledge on recent trends in Fintech to the students and these components will not cover in the examination.

Text Books:

Java	Programn	ning	Lab
Juia	rivsianin		Lav

Core -S2EC1L

Learning Objectives: (for teachers: what they have to do in the class/lab/field)

- To gain practical expertise in coding Core Java programs
- To become proficient in the use of AWT, Event Handling and Swing.

Course Outcomes: (for students: To know what they are going to learn)

CO1: Code, debug and execute Java programs to solve the given problems

CO2: Implement multi-threading and exception-handling

CO3: Implement functionality using String and String Buffer classes

List of Programs

- 1. Write a Java program that prompts the user for an integer and then prints out all the prime numbers up to that Integer?
- 2. Write a Java program to multiply two given matrices.
- 3. Write a Java program that displays the number of characters, lines and words in a text?
- 4. Generate random numbers between two given limits using Random class and print messages according to the range of the value generated.
- 5. Write a program to do String Manipulation using Character Array and perform the following string operations:
 - a) String length
 - b) Finding a character at a particular position
 - c) Concatenating two strings
- 6. Write a program to perform the following string operations using String class:
 - a) String Concatenation
 - b) Search a substring

- c) To extract substring from given string
- 7. Write a program to perform string operations using String Buffer class:
 - a) Length of a string
 - b) Reverse a string
 - c) Delete a substring from the given string
 - 8. Write a java program that implements a multi-thread application that has three threads. First thread generates random integer every 1 second and if the value is even, second thread computes the square of the number and prints. If the value is odd, the third thread will print the value of cube of the number.
 - 9. Write a threading program which uses the same method asynchronously to print the numbers 1 to 10 using Thread1 and to print 90 to 100 using Thread2.
 - 10. Write a program to demonstrate the use of following exceptions.
 - a) Arithmetic Exception
 - b) Number Format Exception
 - c) Array Index Out of Bound Exception
 - d) Negative Array Size Exception

Extended Professional Component	Questions related to the above topics, from various competitive examinations UPSC / TRB / NET / UGC –CSIR / GATE / TNPSC / others to be solved (To be discussed during the Tutorial hour)
Skills acquired from the course	Knowledge, Problem Solving, Analytical ability, Professional Competency, Professional Communication and Transferrable Skill

WEB TECHNOLOGY LAB

Learning Objectives: (for teachers: what they have to do in the class/lab/field)

- The objectives of this course are to have a practical understanding about how to write PHP code to solve problems.
- Display and insert data using PHP and MySQL.
- Test, debug, and deploy web pages containing PHP and MySQL.
- It also aims to introduce practical session to develop simple applications using PHP and MySQL.

Course Outcomes: (for students: To know what they are going to learn)

- 1. On the completion of this laboratory course the students ought to
- 2. Obtain knowledge and develop application programs using Python.
- Create dynamic Web applications such as content management, user registration, and ecommerce using PHP and to understand the ability to post and publish a PHP website.
- 4. Develop a MySQL database and establish connectivity using MySQL.

LIST OF PRACTICALS

- 1. Write a PHP program which adds up columns and rows of given table
- 2. Write a PHP program to compute the sum of first n given prime numbers
- 3. Write a PHP program to find valid an email address
- 4. Write a PHP program to convert a number written in words to digit.

- 5. Write a PHP script to delay the program execution for the given number of seconds.
- 6. Write a PHP script, which changes the colour of the first character of a word
- 7. Write a PHP program to find multiplication table of a number.
- 8. Write a PHP program to calculate Factorial of a number.
- 9. Write a PHP code to create a student mark sheet table. Insert, delete and modify records.
- 10. From a XML document (email.xml), write a program to retrieve and print all the e-mail addresses from the document using XML
- 11. From a XML document (tree.xml), suggest three different ways to retrieve the text value'John' using the DOM:
- 12. Write a program that connects to a MySQL database and retrieves the contents of any one of its tables as an XML file. Use the DOM.

Extended Professional Component	Questions related to the above topics, from various competitive examinations UPSC / TRB / NET / UGC – CSIR / GATE / TNPSC / others to be solved (To be discussed during the Tutorial hour)

SEMESTER: III SEC: IV PART: III

23UCOAS36: STOCK MARKET OPERATIONS

CREDIT: 1 HOURS: 1/W

Learni	ng Objectives:						
LO1:	To acquaint students with knowledge of Securities Market						
LO2:	To enable the students to understand the knowledge of Practice Trading on Stock Market						
LO3:	To impart the students to understand the legal frame work of securities Market						
LU3.							
LO4:	To enables the students to have depth knowledge in different segment of stock						
LO4.	exchange						
LO5:	To understand the role of Demat Trading						
Course	e Outcomes:						
	After the successful completion of the course, the students will be able to:						
CO1:	Explain the basic concept of Securities Market						
CO2:	Practice Trading on Stock Market						
CO3:	Analyse the legal Frame work of Securities Market						
CO4:	Explain different segment of Stock Exchange						
CO5:	Perform Demat Trading						

Unit I: Introduction

Concept and types of Securities; Concept of return; Concept, types and measurement of risk; Development of Securities market in India

Unit II: Primary Market

Concept, Functions and Importance; Functions of New Issue Market (IPO, FPO & OFS); Methods of Floatation- fix price method and book building method; Pricing of Issues; Offer Documents; Appointment and Role of Merchant Bankers, Underwriters, Lead Managers, Syndicate Members, Brokers, Registrars, Bankers, ASBA; SME IPOs and Listing of Securities.

Unit III: Secondary Market

Concept; Functions and Importance; Mechanics of Stock Market Trading-Different Types of Orders, Screen Based Trading, Internet-Based Trading and Settlement Procedure; Types of Brokers.

Unit IV: Regulatory Framework

SEBI (Issue of Capital and Disclosure Requirements) Regulation 2018; Stock Exchanges and Intermediaries; SEBI and Investor Protection; Securities Contract Regulation Act and SEBI (Listing Obligations and Disclosure Requirements) Regulation 2015.

Unit V: Demat Trading

Concept and Significance; Role of Depositories and Custodian of Securities in Demat Trading; SEBI Guidelines and other Regulations Relating to Demat Trading; Procedure of Demat Trading.

Practical Exercises:

The learners are required to:

- 1. Prepare the steps involved in pre and post management of hypothetical case of IPO/FPO.
- 2. Make a comparative analysis of IPOs to identify parameters of success and causes of failure.
- 3. Expose themselves to trading screen of National Stock Exchange (www.nseindia.com) anddemonstrate
- a)Procedure of placing buying /selling order.
- b) Trading Workstation Station (TWS) of spot market and financial derivative markets(Futures and Options).
- 4. Learn demat trading and investment with the help of relevant software (Working on Virtualtrading platform).

Recent Trends in Stock Market

Faculty member will impart the knowledge on recent trends in Stock Market to the students and these components will not cover in the examination.

Text Books:

SEMESTER: III SEC: V PART: III

23UCOAS37: NEW VENTURE PLANNING & DEVELOPMENT

CREDIT: 2 HOURS: 2/W

Learni	Learning Objectives:					
LO1:	To acquaint students with knowledge of Setting up a new Business					
LO2:	To enable the students to understand the legal challenges in setting up Business					
LO3:	To impart the students to search for entrepreneurial capital					
LO4:	To enables the students to have depth knowledge in marketing aspects of new ventures					
LO5:	To understand the role Business Plan Preparation for New Ventures					
Course	e Outcomes:					
	After the successful completion of the course, the students will be able to:					
CO1:	Generate a business idea using different techniques and describe sources of					
COI.	innovative ideas					
CO2:	Evaluate advantages of acquiring an ongoing venture with a case study;					
CO3:	Present a comparative analysis of various government schemes which are suitable					
CO3.	for thebusiness idea;					
CO4:	Develop a marketing plan for a business idea;					
CO5:	Prepare and present a well-conceived Business Plan					

Unit I: Starting New Ventures

New Venture: Meaning and features. Opportunity identification. The search for new ideas. Source of innovative ideas. Techniques for generating ideas. Entrepreneurial imagination and creativity: The role of creative thinking. Developing creativity. Impediments to creativity. The pathways to New Ventures for Entrepreneurs, Creating New Ventures. Acquiring an established Venture: Advantages of acquiring an ongoing Venture. Evaluation of key issues. Franchising: How a Franchise works. Franchise law. Evaluating the franchising opportunities.

Unit II: Legal Challenges in Setting up Business

Intellectual Property Protection: Patents, Trademarks, and Copyrights. Requirements and Procedure for filing a Patent, Trademark, and Copyright. Legal acts governing businesses in India.Identifying Form of Organisation and their procedures and compliances.

Unit III: Search for Entrepreneurial Capital

The Entrepreneur's Search for Capital. The Venture Capital Market. Criteria for evaluating New-Venture Proposals. Evaluating the Venture Capitalist.

Financing stages. Alternate Sources of Financing for Indian Entrepreneurs. Bank Funding. Government Policy Packages. State Financial Corporations (SFCs). Business Incubators and Facilitators. Informal risk capital: Angel Investors. Government schemes for new ventures like: Startup India, Stand Up India, Make in India, etc.

Unit IV: Marketing Aspects of New Ventures

Developing a Marketing Plan: Customer Analysis, Geographical Analysis, Economical Analysis, Linguistic Analysis, Sales Analysis and Competition Analysis. Market Research. Sales Forecasting. Evaluation. Pricing Decision.

Unit V: Business Plan Preparation for New Ventures

Business Plan: Concept. Pitfalls to Avoid in Business Plan. Benefits of a Business Plan. Developing a Well-Conceived Business Plan. Elements of a Business Plan: Executive Summary. Business Description. Marketing: Market Niche and Market Share. Research,

Design and Development. Operations. Management. Finances. Critical-Risk. Harvest Strategy. Milestone Schedule

Practical Exercises:

The learners are required to:

- 1. Generate a business idea using different techniques and describe sources of innovative ideas.
- 2. Evaluate advantages of acquiring an ongoing venture with a case study.
- 3. Present an idea which can have IPR like patents along with comparative analysis of patentsalready granted in similar field.
- 4. Present a comparative analysis of various government schemes which are suitable for thebusiness idea (developed in exercise 1).
- 5. Develop a marketing plan for the business idea (developed in exercise 1).
- 6. Prepare and present a well-conceived Business Plan.

Recent Trends in New Venture Planning & Development

Faculty member will impart the knowledge on recent trends in New Venture Planning & Development to the students and these components will not cover in the examination.

SEMESTER: IV CORE: VIII PART: III

23UCOAC44: COMPANY LAW

CREDIT: 5 HOURS: 5/W

	Learning Objectives						
LO1	To know Company Law 1956 and Companies Act 2013						
LO2	To have an understanding on the formation of a company						
LO3	To understand the requisites of meeting and resolution						
LO4	To gain knowledge on the procedure to appoint and remove Directors						
LO5	To familiarize with the various modes of winding up						
	isite: Should have studied Commerce in XII Std						
Unit	Contents	No. of Hours					
I	Introduction to Company law Companies Act 2013 – Definition of a Company, Characteristics of Company – Lifting or Piercing the Corporate Veil – Company Distinguished from Partnership and Limited Liabilities Partnerships – Classification of Companies – Based on Incorporation, Liability, Number of Members, Control.	15					
II	Formation of Company Formation of a Company – Promoter –Incorporation Documents e- filing – Memorandum of Association – Contents – Alteration – Legal Effects – Articles of Association - Certificate of Incorporation – Prospectus – Contents - Kinds – Liabilities – Share Capital – Kinds – Issue – Alteration – Dividend – Debentures.	15					
III	Meeting Meeting and Resolution – Types – Requisites – Voting & Poll – Quorum – Proxy - Resolution – Ordinary & Special - Audit & Auditors – Qualification, Disqualification, Appointment and Removal of an Auditor -	15					
IV	Management & Administration Management & Administration — Directors — Legal Position — Board of Directors — Appointment/ Removal — Disqualification — Director Identification Number — Directorships — Powers — Duties — Board Committees — Related Party Transactions — Contract by One Person Company — Insider Trading- Managing Director — Manager — Secretarial Audit — Administrative Aspects and Winding Up — National Company Law Tribunal (NCLT) — National Company Law Appellate Tribunal (NCLAT) — Special Courts.	15					
V	Winding up Meaning – Modes – Compulsory Winding Up – Voluntary Winding Up – Consequences of Winding Up Order – Powers of Tribunal – Petition for Winding Up – Company Liquidator.	15					
	TOTAL	75					
	Course Outcomes						
CO1	Understand the classification of companies under the act						
CO2	Examine the contents of the Memorandum of Association & Articles of	Association					
CO3	Know the qualification and disqualification of Auditors						
CO4	Understand the workings of National Company Law Appellate Tribunal	(NCLAT)					

CO5	Analyse the modes of winding up

23UCOAS46: BRAND MANAGEMENT

CREDIT: 2 HOURS: 2/W

Learni	Learning Objectives:							
LO1:	To familiarize the basic knowledge on branding							
LO2:	To understand brand positioning.							
LO3:	To gain knowledge on brand extension							
LO4:	To understand the elements of brand equity.							
LO5:	To know the position of retail branding.							

Course	Course Outcomes:							
	After the successful completion of the course, the students will be able to:							
CO1:	Explain the concept of branding							
CO2:	Discuss the brand positioning and identify brands							
CO3:	Explain the elements of brand extension.							
CO4:	Summarize the impact of celebrity brand							
CO5 :	Discuss the determinants of successful brand management							

Unit I: Branding

Introduction- Advantages and Disadvantages of branding-Branding decisions-Global brand-Brand name- Branding approaches- Brand building – Brand extension and brand dilution-individual and organizational brand -Corporate branding.

Unit II: Brand Positioning

Brand Positioning - quality of successful of positioning –Positioning process-brand positioning strategy- -Building brand personality-Online brand building.

Brand identity-sources-brand personality-Brand awareness-Brand loyalty-Brand association-Brand image

Unit III: Brand Extension

Reasons for brand extensions-Evaluation of brand extension-Bases for brand extension-Types of brand extensions-Advantages and disadvantages of brand extensions. Co-branding-types-Advantages and disadvantages-Functions of brand extensions.

Unit IV: Brand Equity

Brand equity-key elements: Assets and Liabilities-Value to the Customers-Value to the firm-positive and negative brand equity-Brand personality: dimensions of brand personality-Branding and celebrity endorsement-important aspects of celebrity brand.

Unit V: Brand Management

Strategic brand management- Successful brand development-effective brand management. **Retail Branding**: Different branding strategy- retail branding in India- future of retail branding- positioning strategy for retail brands.

SEMESTER: IV SEC: VII PART: IV

23UCOAS47: CLEARING AND FORWARDING IN EXPORT AND IMPORT

CREDIT: 2 HOURS: 2/W

Learnir	Learning Objectives:								
LO1:	To educate the students how the clearing and forwarding agents acted in Ports								
LO2:	To gain knowledge how the export documents are prepared by the exporter and								
LUZ:	theses documents are handled by the shipping and forwarding agents								
LO3:	To acquire knowledge in import documentation								
LO4:	To know the how the frights are charged by the shipping and forwarding agents								
LO5:	To understand the Risk in Export and Import								
Course	Outcomes:								
	After the successful completion of the course, the students will be able to:								
CO1:	Explain the role of clearing agents in ports								
CO2:	Discuss the export procedure and documentation								
CO3:	Explain the import documentation procedure								
CO4:	Equip Freight forwarding services								
CO5:	Discuss the determinants of Risk Management								

Unit I: Introduction

Introduction to clearing and forwarding – Role and importance of Clearing and Forwarding in International Trade- Logistics and Supply Chain Management- Roles and responsibilities of clearing and forwarding agents- Relevant legal and regulatory frame work-Documents required for clearing and forwarding

Unit II: Export Procedure Documentation

Documents required for export- Commercial Invoice-Packing list-Certificate of Origin -.GMP Certificate- Bill of Lading – Insurance – USFDA Registration Certificate- ISO 9000 certification - Export Licensing procedures and formalities- Pre-requisite of Export and Import- Negative list of Exports

Unit III: Import Procedure Documentation

Import Documentation – Import Licence under Advance Authorization- Customs Inspection, Examination and Audits – General Provisions regarding Import

Unit IV: Fright forwarding and Transportation

Fright forwarding services in import and export – Mode of Transport- Air,Sea- Freight rates-INCO terms – Packaging, labelling and cargo handling requirements

Unit V: Risk Management

Risk Assessment – Insurance coverage and claims – Methods of Export and Import Payments- Export Earning Foreign Currency – Letter of credit and international payments system- Managing trade related financial documents

Recent Trends in Clearing and Forwardin in Export and Import

Faculty member will impart the knowledge on recent trends in Clearing and Forwarding in Export and Import to the students and these components will not cover in the examination.

Text Books:

- 1. Mahajan M.I, 2021, Export Policy, Procedure and Documentation, Snow white Publications, Mumbai
- 2. Natarajan L 2022, Import and Export Procedure (Import Management), Margham Publications, Chennai.

UML Lab Common for both Electives in semester V	Core - Core -S5EC1/2L
Credits 4	Lecture Hours:5 per week

Learning Objectives: (for teachers: what they have to do in the class/lab/field)

- To get familiarized to the usage of UML tool kit.
- To understand the requirements of the software and to map them appropriately to subsequent phases of the software development
- To develop the ability to verify and validate their designs

Course Outcomes: (for students: To know what they are going to learn)

CO1: Students must be able to analyses and design the problem at hand.

CO2: Students should be able to use UML tools for the designing the software and test the correct ness and soundness of their software through testing tools.

LIST OF PRACTICALS

Using UML tools produce analysis and design models for

- a. Library Management System
- b. Automatic Teller Machine
- c. Student Information Management
- d. Matrimony Service
- e. Stock Management System

Extended	Questions related to the above topics, from various competitive
Professional	examinations UPSC / TRB / NET / UGC –
Component	CSIR / GATE / TNPSC / others to be solved (To be discussed during the
	Tutorial hour)
